

Well Circle

Your tribe, your wellness.

Right where you chat.

A wellness marketplace + accountability
community for Ethiopia — built inside the app
50M+ Ethiopians already use every day.

Our story

After our 21km run on Saturdays, our friends often ask

We kept saying,

**Just to feel
better**

After

5

YEARS of RUNNING tho...

What kept us going wasn't an app or a plan — it was each other. The accountability. The shared check-ins. The friendly competition.

But most people don't have that. They have the intention. **They don't have the circle.**

Well Circle is that
circle for everyone

The gap isn't knowledge. It's community.

Fragmented discovery

Hundreds of gyms, yoga studios & nutritionists in Addis — all hidden in DMs and word-of-mouth.

No accountability

People know what they should do.
The follow-through collapses
without social friction.

Providers are invisible

Wellness SMEs have no CRM, no booking system, and no way to reach corporate wellness budgets.

One app. Three layers.

Well Circle lives inside Telegram — zero downloads, zero friction.

01

Discover

Browse verified wellness providers — gyms, yoga, nutrition, therapy — with real ETB pricing and one-tap booking.

02

Connect

Join Circles: community groups built around providers and goals. Weekly leaderboards keep your tribe accountable.

03

Grow

Earn Legacy Points for every check-in, every post, every reaction. Your consistency becomes visible — and celebrated.

All without leaving Telegram.

Circles

Your accountability tribe.

Create a Circle with friends from a run club, yoga class, or wellness event.

Weekly leaderboards rank members by Legacy Points — friendly competition that drives consistency.

Group progress feed shows every check-in, booking, and milestone in real time.

Circles can link directly to provider communities — so your gym's community lives where you already chat.

Smart Notifications

The right nudge, at the right moment — with your permission.

Location-Aware

"A yoga studio near Bole is offering a free first class this Saturday."

Health-Synced

Connect your fitness app (Apple Health, Google Fit). Low step count = gentle Circle nudge to get moving.

Habit Reminders

Skipped a check-in? Your Circle notices. A friendly prompt (not a guilt trip) arrives before midnight.

Milestone Moments

"You've been active for 7 days straight — you're on a streak! Your Circle is watching." Positive reinforcement.

Always opt-in. Users choose what to share. Privacy is a feature, not a footnote.

More than a marketplace.

Explore products. Share your journey. Lift others up.
